## Activity Disclaimer

The material presented here is being made available by the DPC Summit for educational purposes only. Please note that medical information is constantly changing; the information contained in this activity was accurate at the time of publication. This material is not intended to represent the only, nor necessarily best, methods or procedures appropriate for the medical situations discussed. Rather, it is intended to present an approach, view, statement, or opinion of the faculty, which may be helpful to others who face similar situations.

The DPC Summit disclaims any and all liability for injury or other damages resulting to any individual using this material and for all claims that might arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person. Physicians may care to check specific details such as drug doses and contraindications, etc., in standard sources prior to clinical application. This material might contain recommendations/guidelines developed by other organizations. Please note that although these guidelines might be included, this does not necessarily imply the endorsement by the DPC Summit.

## Disclosure Statement

It is the policy of the AAFP and ACOFP that all individuals in a position to control CME content disclose any relationships with ineligible companies upon nomination/invitation of participation. Disclosure documents are reviewed for potential relevant financial relationships. If relevant financial relationships are identified, mitigation strategies are agreed to prior to confirmation of participation. Only those participants who had no relevant financial relationships or who agreed to an identified mitigation process prior to their participation were involved in this CME activity.

All individuals in a position to control content for this activity have indicated they have no relevant financial relationships to disclose.

# Learning Objectives

1. Discover how transitioning to DPC impacts close family members by creating a better work-life balance for physicians, reducing stress, and ultimately enhancing the quality of care provided to patients.
2. Explore how the shift to DPC transforms staff roles, leading to a more patient-focused, efficient practice that improves both team satisfaction and the overall patient experience.
3. Evaluate the potential benefits and challenges of transitioning to DPC to make informed decisions that strengthen practice sustainability and enhance patient care

## Questions

- Introduce yourselves. Who is your DPC Doc? What is your role?
- What was it like in the traditional practice for you?
- How did/has DPC changed your life in a positive way?
- Every decision has pros and cons. What would you caution your peers about with respect to the DPC life?
- Questions?
